

Urgent Need to Shut Old Coal Power Plants

Praveer Sinha, CEO and MD of Tata Power implored the government of India and the state governments to shut down old power plants that are currently producing 60,000 megawatts of power. This has multiple benefits which far outweigh the damage closure would entail. [Read More>>](#)

Corona Impact - Biomedical Waste Disposal A Big Concern By Tejjashree Joshi, Head, Environmental Sustainability, Godrej & Boyce

The Corona pandemic has compelled most countries to require its citizens to use personal protective equipment (PPE) such as masks, gloves, protective wear, body bags etc. as a first line of defense against this highly contagious disease, to protect them from contacting the virus and prevent them from transmitting. While the PPEs are extremely essential for the health and wellbeing of frontline COVID-19 warriors like doctors, paramedics, healthcare professionals, sanitation workers, security and law and order professionals [Read More>>](#)

Sugarcane Waste to Paper - Kaushal Shah's Packaging Journey

In my formative years in Pune (India) in the 1990s, I vividly remember attending sugarcane harvests with my relatives. The waste from these harvests would be dragged to the edges of fields and burnt, with c. 6.5 million tonnes of waste burnt each year. The memory of these burnings, the subsequent thick smoke, and the overall quantity of waste has stayed with me ever since. [Read More>>](#)

Executives Learnt 3 Times More During Lockdown

GlobalGyan Academy, an executive education platform, recorded more than three times interest for learning during the four months lockdown between April and July 2020. It showed that the appetite for learning has been there but the pressures of work has have been an impediment. The five-year old company, which has marketing guru Jagdish Sheth and Tata Group Chairman Emeritus Mr. Rata Tata as investors, [Read More>>](#)

Book Review

A Smart Snapshot of India's Environmental Journey

It's easy to believe when someone says that Indians have no pride in their history be it political, economic, social or art. I used to believe it until I realized that the problem lies more with how boringly history is taught in India not only in schools but also in colleges and universities. It's tragic because there's no dearth of high quality, well-researched literature on any segment of India's history, including its environmental history. [Read More>>](#)
