- New Book Releases

EV Battery

How to Make Your Battery Last Longer

The number one worry for anyone thinking about buying an EV is battery durability, how long their EV's battery will last before it starts to degrade. There is hope. Predictive maintenance can make the battery last longer. Find out how.

Karnataka Green Summit

Bengaluru is Enough

There is a growing feeling among Bengalurians that the city has reached its limits in all aspects, especially its infrastructure, and that it is high time other towns in Karnataka

are developed quickly. The city contributes to 85% of the state's revenue but the funding it gets for infra development is insufficient. The state has good policies for decongesting Bengaluru but implementation is key.

Ocean Cleanup's 30 Cities Program Needs Funds

Local communities and government departments have been eager to partner with the Ocean Cleanup's ambitious 30 Cities' Program worldwide but more financial support can help speed up its messy plastic cleaning drive.

Innovation

How Tech Is Powering Safe Doorstep Fuel

In the bustling streets of India, where a 10-minute trip to the petrol pump can easily turn into an hour-long battle with traffic, a quiet revolution is underway. It is not just about fuel; it is about time, safety, and clever engineering that bring the station to your doorstep.

Guest Article

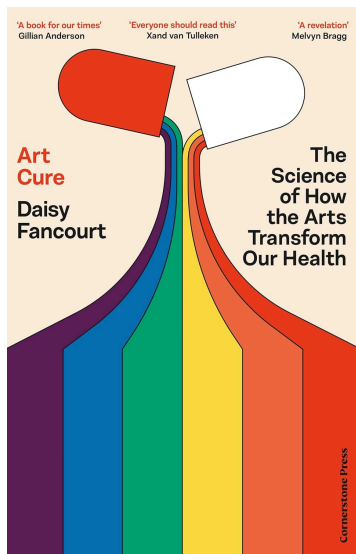

The Insect Muses That Have Shaped Our World

The smallest QR code has been designed by studying the bodies of leaf hoppers coated with tiny, granular brochosomes, and the use of fire beetles may help us get an early warning of forest fires. These stories of insects in Geetha Iyer's *Miniature Giants* are as fascinating as it is unusual. She looks at insects as "nature's prized creations both in numbers and their diversity." Their dazzling body colours, the bizarre and outlandish forms, odd and unusual lifestyles are rarely noticed or appreciated. There is geometry in their wing structures and mathematics in their flight. They don't require a flute or a guitar to create music; nor brushes or paints for arts; their bodies take care of it all."
